DETAILED ACTION

1. Receipt of the amendment filed June 06, 2007 amending claim 1 and canceling claims 4-11 is acknowledged. Claims 1-3 are pending in the application and are presented to be examined upon their merits.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, a method for identifying a cost minimizing bid set where the method provides generating a winner of the reverse combinatorial auction must be shown or the feature(s) canceled from the claim(s). Also formulating an objective of choosing bids that arrive early, for a given cost, based upon an additional time stamped objective with the given cost level as a constraint is also not shown in the drawings. The applicant should be aware that no new matter should be entered. However, such feature(s) should be provided within a flowchart, showing the claimed process or steps. Thus a drawing of a graph or an apparatus does not overcome this requirement because it is not considered a method, or steps within a method, as claimed. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes

made to the brief description of the several views of the drawings for consistency.

Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
